

**FALL 2016**

**LOCATION:**  
Mayfield Rd to Hwy #410 Overpass, Etobicoke Creek Watershed

**DATE:**  
Fall, 2016

**REGION/MUNICIPALITY:**  
Region of Peel, City of Brampton, Town of Caledon

**PARTNERS:**  
Toronto and Region Conservation (TRCA), City of Brampton, Town of Caledon, Ontario Municipal Cycling Infrastructure Program (OMCIP)

## Etobicoke Creek Trail Link, Brampton to Caledon, Opening Ceremony

Last year the Town of Caledon and City of Brampton worked with TRCA to submit applications to the Ontario Municipal Cycling Infrastructure Program (OMCIP) to secure funds to help support the construction of a new trail link on the Etobicoke Creek trail.

This extension is from Mayfield Rd to the Hwy 410 overpass encompassing approximately 800m of new trail within the Town of Caledon jurisdiction and 700 of new trail within the City of Brampton boundaries. Funding was provided by the Town of Caledon, City of Brampton and TRCA to support restoration enhancement work related to the trail project.

During the summer TRCA initiated construction on behalf of both municipalities to construct this new trail link and installation of a new trailhead kiosk just north of the Hwy 410 overpass with TRCA staff wrapping up trail construction work by mid-September.

Over the next couple of years, TRCA staff will be working with both municipalities to organize community based planting events along the new trail to help enhance riparian cover along the Etobicoke Creek, mitigate impacts of erosion, improve habitat connectivity within the valley lands and engage local residents in stewardship activities.

### POSITIVE ENVIRONMENTAL IMPACTS
