

ETOBICOKE AND MIMICO CREEKS WATERSHEDS

Technical Update Report

2010

Prepared by:
Toronto and Region Conservation Authority

Acknowledgements

The Etobicoke and Mimico Creeks Watersheds Technical Update Report was prepared by staff of the Toronto and Region Conservation Authority. Appreciation and thanks are extended to members of the Etobicoke and Mimico Watersheds Coalition, staff from watershed municipalities and government partners who provided input at various stages of the study.

TABLE OF CONTENTS

EXECUTIVE SUMMARY	i
1.0 INTRODUCTION	1-1
1.1 Technical Update Approach.....	1-1
1.2 Report Scope and Organization.....	1-2
1.3 Watershed Vision	1-2
1.4 Watershed Objectives, Indicators and Targets.....	1-3
2.0 STUDY AREA AND PHYSICAL SETTING	2-1
2.1 Study Area and Location	2-1
2.2 Watershed and Subwatershed Boundaries	2-1
2.3 Land Use and Population	2-3
2.3.1 Current Land Use and Population.....	2-4
2.3.2 Planned Development	2-6
2.4 Climate	2-8
2.5 Physiographic Regions.....	2-10
2.6 Surficial Geology and Geology	2-11
2.6.1 Scarborough Formation	2-11
2.6.2 Sunnybrook Diamict	2-17
2.6.3 Thorncliffe Formation.....	2-17
2.6.4 Newmarket Till	2-17
2.6.5 Oak Ridges Moraine and Mackinaw Interstadial Deposits	2-17
2.6.6 Halton Till	2-17
2.6.7 Recent Deposits.....	2-18
2.7 References.....	2-21
3.0 GROUNDWATER QUANTITY AND QUALITY	3-1
3.1 Watershed Objectives, Indicators and Targets.....	3-2
3.2 Objectives of Technical Update	3-2
3.3 Data Sources and Methods.....	3-3
3.3.1 Data Sources	3-3
3.3.2 Methods	3-4
3.4 Existing Conditions and Interpretation.....	3-5
3.4.1 Hydrogeologic Units.....	3-5
3.4.2 Groundwater Recharge	3-11
3.4.3 Groundwater Levels.....	3-11
3.4.4 Groundwater Modelling	3-23
3.4.5 Water Budget.....	3-23
3.4.6 Groundwater Quality.....	3-34
3.5 Management Recommendations	3-35
3.5.1 Development within former Brampton Esker Aggregate Pits.....	3-35
3.5.2 Groundwater Recharge	3-37
3.5.3 Groundwater Levels.....	3-38
3.5.4 Groundwater Quality.....	3-39
3.6 References	3-40
3.7 Appendix 3-A: Aerial photographs of Esker Lake North taken between 1999 and 2007.....	3-42

4.0	BASEFLOW AND WATER USE	4-1
4.1	Watershed Objectives, Indicators and Targets.....	4-2
4.2	Objectives of Technical Update.....	4-2
4.3	Data Sources and Methods.....	4-2
	4.3.1 Baseflow Data.....	4-2
	4.3.2 Groundwater Data.....	4-3
	4.3.3 Surface Water Use Data.....	4-3
	4.3.4 Streamflow and Climate Data.....	4-3
4.4	Existing Conditions and Interpretation.....	4-4
	4.4.1 Baseflow Trends.....	4-4
	4.4.2 Measured Baseflow Findings.....	4-9
	4.4.3 Etobicoke and Mimico Creek Water Use.....	4-17
	4.4.4 Summary of Findings.....	4-23
4.5	Management Recommendations.....	4-25
4.6	References.....	4-27
5.0	STORMWATER MANAGEMENT AND STREAMFLOW	5-1
5.1	Watershed Objectives, Indicators and Targets.....	5-3
5.2	Objectives of Technical Update.....	5-4
5.3	Data Sources and Methods.....	5-4
	5.3.1 Data Sources.....	5-4
	5.3.2 Method.....	5-5
5.4	Existing Conditions and Interpretation.....	5-6
	5.4.1 Existing Land Use.....	5-6
	5.4.2 Areas Covered by Comprehensive Stormwater Management (SWM) Plans.....	5-10
	5.4.3 Existing SWM Controls.....	5-15
	5.4.4 Stormwater Management Quality Treatment.....	5-20
	5.4.5 Stormwater Management Erosion Control.....	5-24
	5.4.6 Stormwater Management Quantity Control.....	5-27
	5.4.7 Stormwater Management Retrofit Plans/ Strategies.....	5-30
	5.4.8 Streamflow.....	5-33
	5.4.9 Summary of Recent Studies Relating to Stormwater Management.....	5-47
	5.4.10 Summary of Findings.....	5-49
5.5	Management Recommendations.....	5-51
5.6	References.....	5-53
5.7	Appendix 5-A: Detailed Land Use Breakdown.....	5-55
6.0	SURFACE WATER QUALITY	6-1
6.1	Watershed Objectives, Indicators and Targets.....	6-1
6.2	Objectives of Technical Update.....	6-3
6.3	Data Sources, Monitoring Programs and Analysis.....	6-3
	6.3.1 Data Sources.....	6-3
	6.3.2 Monitoring Programs.....	6-3
	6.3.3 Analysis.....	6-6
6.4	Existing Conditions and Interpretation.....	6-6
	6.4.1 Conventional Pollutants.....	6-6
	6.4.2 Metals.....	6-17
	6.4.3 Bacteria.....	6-23
	6.4.4 Summary of Findings.....	6-25

6.5	Management Recommendations	6-27
6.6	References	6-28
6.7	Appendix 6-A: Other Water Quality Monitoring Programs.....	6-30
7.0	FLUVIAL GEOMORPHOLOGY	7-1
7.1	Watershed Objectives Indicators and Targets.....	7-1
7.2	Objectives of Technical Update	7-2
7.3	Data Sources and Monitoring.....	7-3
	7.3.1 Data Sources	7-3
7.4	Measuring Fluvial Geomorphology	7-9
	7.4.1 Channel Morphology	7-9
	7.4.2 Flow Regime and Erosion Potential	7-10
	7.4.3 Stream Corridor Integrity and Continuity	7-11
	7.4.4 Spatial Analysis and Regional Curves.....	7-12
7.5	Existing Conditions and Interpretation	7-12
	7.5.1 Channel Morphology	7-12
	7.5.2 Flow Regime and Erosion Potential	7-20
	7.5.3 Stream Corridor Integrity and Continuity	7-23
	7.5.4 Risk to Public and Private Property from Channel Evolution and Change	7-23
	7.5.5 Spatial Analysis and Regional Curves.....	7-27
7.6	Summary of Findings	7-29
7.7	Management Recommendations	7-32
7.8	References	7-34
7.9	Appendix 7- A:Overview of Factors Influencing Fluvial Geomorphic Processes.....	7-35
	7.10 Appendix 7- B:Migration Rate Assessment.....	7-39
	7.11 Appendix 7- C:Cross-Sectional Assessment Results	7-42
	7.12 Appendix 7- D:Regional Curve Results.....	7-50
8.0	TERRESTRIAL NATURAL HERITAGE SYSTEM	8-1
8.1	Watershed Objectives, Indicators and Targets.....	8-2
8.2	Objectives of Technical Update	8-2
8.3	Data Sources and Methods.....	8-4
	8.3.1 Data Sources	8-4
	8.3.2 Methods	8-5
8.4	Existing Conditions and Interpretation	8-5
	8.4.1 Quantity of Natural Cover	8-5
	8.4.2 Connectivity	8-8
	8.4.3 Quality and Distribution of Natural Cover.....	8-8
	8.4.4 Summary of Existing Conditions	8-14
8.5	Target Terrestrial Natural Heritage System.....	8-15
	8.5.1 Quantity of Natural Cover	8-17
	8.5.2 Quality of habitat.....	8-18
	8.5.3 Priority Management Areas	8-20
8.6	References	8-23
8.7	Appendix 8-A: Etobicoke and Mimico Creeks Watersheds – Terrestrial Natural Heritage System Refinement.....	8-24
8.8	Appendix 8-B: Etobicoke and Mimico Creeks Watersheds Terrestrial Priority Management Areas	8-26

9.0 AQUATIC SYSTEM - INSTREAM BARRIERS TO FISH PASSAGE	9-1
9.1 Watershed Objectives, Indicators and Targets.....	9-1
9.2 Objectives of Technical Update	9-2
9.3 Data Sources, Field Surveys and Methods.....	9-3
9.3.1 Desktop Assessment.....	9-3
9.3.2 Field Surveys	9-5
9.3.3 Data Synthesis and Analyses	9-6
9.4 Existing Conditions and Interpretation.....	9-7
9.4.1 Fish Species in Etobicoke and Mimico Creeks	9-8
9.4.2 On-Line Stormwater Management Ponds in the Etobicoke and Mimico Creeks Watersheds	9-9
9.4.3 Channelization of Etobicoke and Mimico Creeks.....	9-10
9.4.4 Impervious Cover in Etobicoke and Mimico Creeks Watersheds	9-13
9.4.5 Overview of Barriers within Etobicoke Creek Watershed	9-16
9.4.6 Overview of Barriers within Mimico Creek Watershed.....	9-30
9.4.7 Overall Summary of Existing Conditions.....	9-38
9.5 Decision Criteria for Selecting Priority Barriers For Management	9-38
9.5.1 Fish IBI Scores and Natural Stream Habitat Areas	9-39
9.5.2 Rehabilitation Projects	9-41
9.5.3 Riparian Vegetation Cover.....	9-43
9.5.4 Small Scale Barriers.....	9-43
9.6 Management Recommendations –Etobicoke Creek Priority Barriers.....	9-45
9.6.1 Category A - Lake to Headwaters	9-45
9.6.2 Category B – Extending Existing Natural Habitat	9-49
9.6.3 Category C – Stewardship.....	9-51
9.7 Management Recommendations - Mimico Creek Priority Barriers.....	9-54
9.7.1 Category A – Lake to Headwaters.....	9-54
9.7.2 Category B – Extending Existing Natural Habitat	9-58
9.7.3 Category C – Stewardship.....	9-61
9.8 Overall Summary of Management Considerations for Etobicoke and Mimico Creeks Watersheds	9-63
9.9 References	9-64
9.10 Appendix 9-A – Assessment Form for Barrier Survey.....	9-66
10.0 SUMMARY AND STRATEGIC MANAGEMENT DIRECTIONS	10-2
10.1 The Natural Watersheds.....	10-2
10.2 Human Influences.....	10-3
10.3 Future Challenges and Opportunities	10-6
10.4 Strategic Management Directions	10-6
11.0 IMPLEMENTATION PRIORITIES	11-2
11.1 New Policy Directions.....	11-2
11.2 Monitoring and Adaptive Management.....	11-7
11.3 Further Investigation	11-8
11.4 Regeneration.....	11-9
11.4.1 Subwatershed Regeneration Plans.....	11-9
11.4.2 Priority Areas for Integrated Regeneration Projects.....	11-21
11.5 Summary of Implementation Priorities by Watershed Partner	11-39
