

NOTICE OF PROJECT

Bolton Resource Management Tract Staircase Replacement

Start Date: May 18th 2017

Completion Date: Summer 2017

*Timeline is subject to change

Welcome to the Bolton Resource Management Tract. These lands are currently undergoing a staircase construction project. The completed staircase replacement will provide a safe, long-lasting trail connection while protecting this sensitive and valuable ecological landscape.

These works are being guided by the Bolton Resource Management Tract Management Plan. Work is expected to continue until Fall 2017.

Please respect all trail closures, construction notices and staff direction.

Attention:

- Bolton Resource Management Tract is a rugged natural area;
- Trails are not winter maintained;
- Weather and trail conditions will vary;
- Staff presence is intermittent and emergency access is limited;
- **During construction Activities this section of the trail is considered a work site and active construction zone and is strictly off limits to unauthorized personnel.**
- **IN CASE OF EMERGENCY CALL 911**
